This map represents a portion of the North Coast Enhanced Compliance Alternative Marine Protected Area (MPA) Proposal; on October 26, 2010 the MLPA Blue Ribbon Task Force adopted this MPA proposal, which does not alter the placement of MPAs developed by stakeholders, as a recommendation to be forwarded to the California Fish and Game Commission for consideration. The MPAs are shown in geographic clusters and include the proposed commercial and recreational uses as well as the proposed recreational uses intended to accommodate tribes and tribal communities. Tribal uses were developed based on input from California north coast tribes and tribal communities. The BRTF is also forwarding a special closures recommendation as proposed by the MLPA North Coast Regional Stakeholder Group; special closures are a separate recommendation from the North Coast Enhanced Compliance Alternative MPA Proposal. More information on the North Coast Enhanced Compliance Alternative MPA Proposal, other MPA proposals, or the special closures recommendation can be found at http://www.dfg.ca.gov/mlpa/mpaproposals_nc.asp.
